EDUCATION	PROJECTS
<div><div>Bachelors of Science in Computer Science</div><div><div>Bahaudin Zakriya University Multan</div><div>GPA 3.52 / 4.0</div></div><div>Date Period</div></div>	<div><div>E-Care</div><div><div>Date Period</div><div>Location</div></div><div>Hospital Managmentment System (Database MySQL) • A complete management system made in C# by using visual syudio and mysql as a database.</div></div>
<div><div>Pre-Engineering</div><div><div>Divisional Public School & Inter College Sahiwal</div><div>Marks 848 / 1100</div></div><div>2012-2014</div></div>	<div><div>Flashing Name Using Arduino [Assembly]</div><div><div>Date Period</div><div>Location</div></div><div>Short summary of your work • It's a Hardware Project in which led lights used which flashes and show the name which we command by using Assembly language</div></div>
<div><div>Matriculation</div><div><div>Divisional Public School & Inter College Sahiwal</div><div>Marks 922 / 1050</div></div><div>2010-2012</div></div>	<div><div>FYP: Computer Fever [Freelancing Website]</div><div><div>Date Period</div><div>Location</div></div><div>Short summary of your work • A Computer Database System of Freelancing System using MyQL with Admin Penal and use cases and test cases were devised. UML Diagrams, ERD's and other approaches were followed to obtain the desire outputs.</div></div>

GENERAL SKILL SET

- Graduate employers place a lot of emphasis on finding candidates with the right skills and competencies for their organisations.
- Depending on the career sector and profession you choose to work in, there could be very specific skills, abilities and knowledge needed to do the job
- Complementing these are general competencies and behaviours that are essential for successful working
